Utica Scouts Contain Fire, House Spared

A group of Utica Boy Scouts were credited Monday with containing a brush fire last Saturday about 6 miles east on M-72 until firefighters from Grayling Township and the DNR arrived to quell the blaze.

According to a sheriff's dept. source, 20-25 scouts from Utica Troop 208 were traveling east on M-72 when the blaze was spotted. Deputies said quick action by the group saved a nearby home which was threatened by the blaze. The incident occurred about 5:30 p.m.

In other department action, police are investigating three larcenies, including:

...The theft of bottle gas tanks valued at \$100 from the Robert Hodges residence on Fletcher Road. The theft was reported shortly after noon on Saturday.

...The theft of \$200-300 worth of items from a Staley Lake Road residence owned by Elbert Phipps of Warren. Deputies received the call after 3:00 p.m. Saturday.

...Larceny of approximately 15 cords of wood from the Clem Brown residence on M-72 west. The theft was reported Sunday afternoon.

Deputies were called to the scene of a one-car accident Saturday night on M-72 east by Staley Lake Rd. which injured Robert F. Ford, 35, of Lansing.

Police say the Ford vehicle was traveling east at a high rate of speed when it spun out of control and hit a mailbox, then skidded across both lanes before striking a tree on the north side of the road.

Ford was transported to Mercy Hospital by ambulance where he complained of a head injury. He was issued a citation by investigating officers.

Eight breaking & enterings were investigated by deputies last week, firemen were called to five fires, including three brush blazes. A stolen vehicle was reported and two disturbances quelled.

Other complaints included suspicious behavior, DUIL incidents, a runaway was located and three missing persons were found. The county ambulance was called out on six occasions during the period.

MOVING DAY!—People move every day without being noticed much. Not so for Christopher Rose, who moved last Friday morning from North Down River Road to Red Wing Terrace-house and all!

Quite a crowd gathered at mid-morning to watch the former Department of Natural Resources resident leave its previous location atop the hill across from the fish hatchery, accompanied by power and telephone workers who gingerly moved wires aside to clear its path. The house was purchased from the State, which plans at some future time to build a new field office on the empty site.

Rose, who works for Tom Schans Plumbing & Heating Supply, will be occupying the home soon with his wife, Merrilyn and daughter, Jennifer Noel, moving here soon from Fairhaven. Rose credited C.L. Davis & Son Movers with doing "a terrific job", and said the house arrived at Red Wing Terrace in just 2½ hours.

The move had a touch of nostalgia for one sightseer on hand Friday. Bernie Engel, retired former DNR fish hatchery chief, had lived in the home for 20 years while employed at the DNR. He stopped by to watch his former home travel nobly down North Down River Road to its new position in history. (Joe Schrader photo).

Former Employee Sues County For \$150,000

By Joe Schrader

Crawford County officials have 20 days to respond to a lawsuit filed by a former employee, Carol Conklin, who claims the county violated her constitutional rights in December of 1980 when she was fired from her job as a clerk for both the County Clerk and Treasurer.

According to a suit filed in U.S. District Court for the Eastern District of Michigan, Ms. Conklin claimed the employer's (the county) decision to fire her was "arbitrary and discriminating", and names Clerk Leo Lovely, Treasurer Joe Wakeley and the County Board of Commissioners as defendants in the matter. The suit claims the county violated the 1st and 14th Amendments to the Constitution, particularly the Civil Rights Act 42.

Ms. Conklin is seeking \$150,000 in damages, including \$50,000 in special damages, plus general damages in the amount of \$100,000. The suit also seeks reinstatement of Ms. Conklin to her position with the county, with restoration of all seniority and benefits, and payment of interest, court costs and attorney fees "wrongfully sustained."

Based on facts mentioned in the lawsuit, Ms. Conklin alleges that she was released from her job on December 1, 1980, after working since June 6, 1980, three days a week as a clerk for the County Clerk, the other two days for the County Treasurer.

The suit notes that she was told about the county's decision twice on December 1st, at 8:30 p.m. and 10:00 p.m., by Lovely and Wakeley respectively. She had previously worked for the County from July of 1977 to July of 1979 when she was laid off.

The county's probationary period is 180 days, after which employees either join the union, A.F.S.C.M.E., Local 2759, or pay a service fee equal to the cost of membership. Ms. Conklin was not a member.

State, Federal Aid Dropping School Dilemma: Soaring Costs, Shrinking Revenues

By Joe Schrader

In asking for approval of a 5.70 mill operating increase for next year, the Crawford-AuSable Board of Education is attempting to grapple with a common problem faced by educators around the state—soaring costs to carry out school programs in the face of

revenues that fail to keep up.

School Supt. Dr. Bill Diedrich described the dilemma as "crisis in scope" when presenting the preliminary budget for 1981-82 at a public hearing May 4, attended by only a handful of interested citizens.

Board members OK'd the preliminary budget of \$3,977,366, and adopted a ballot proposal calling for renewal of 17.90 mills with a separate request for 5.70 added mills. Voters will decide on the issue June 8, and will elect board members from a field of nine candidates vying for the two openings. The vote on the \$3.55 million middle school bond issue was postponed until February of 1982.

A year ago, voters were asked to approve only a millage renewal (17.90), but school officials cut expenses by over \$150,000 to try to stay within the renewal budget. Diedrich said 11½ teaching positions were eliminated and teacher-pupil

ratios were increased at three district schools accordingly. Transportation costs were cut by increasing walking distances, eliminating bus purchases and re-routing several runs.

Maintenance costs were cut, \$36,000 in fund equity was spent, and reductions in educational supplies, workshops, athletic programs and audio-visual materials was effected.

Despite these efforts, unexpected increases in school costs topped revenues by an anticipated \$53,000, forcing the Board to come up with an even larger millage increase next year to recover the shortage.

Here are some of the prime examples of soaring school costs (this year vs. 1979-80) as presented by Diedrich to the Board May 4: Health Insurance

School

(Continued From Page 1)

(up 26.5%), heating (up 15.7%), electricity (up 5.7%), Special Education (up 13.2%). School administrators are projecting these costs will escalate 31.8, 38.9, 20.1 and 45.7 percent respectively next year. Gasoline and oil costs, which dropped this year over 1979-80, are expected to climb by 26.5% next year. Biggest jump since 1977-78 was in heating, which, considering next year's expected increase, will jump 142.3% over the period. All others are expected to climb over 45% during the 5-year period.

Complicating the matter is the fact that state and federal aid for mandated special education is being reduced, while agencies like C.O.O.R., which provides the educational services, is passing along the increased costs to the local district.

A comparison of school revenues, expenditures, and the U.S. Consumer Price Index shows an interesting pattern since 1976-77:

Year	Revenues	Expenditures	Price Index
1976-77	\$2,522,583	\$2,465,607	5.8%
1977-78	\$2,717,580 (+7.7%)	\$2,736,501 (+11%)	+6.7%
1978-79	\$3,029,609 (+11.5%)	\$3,243,474 (+18.5%)	+9.4%
1979-80*	\$3,447,756 (+13.8%)	\$3,362,230 (+3.6%)	+13.4%
1980-81*	\$3,443,173 (-0.4%)	\$3,577,019 (+6.4%)	+12.2%
1981-82	\$3,359,000 (-2.0%)	3,977,366 (+11.1%)	

*Projected this school year and next.

The analysis shows decreasing revenues this year and continuing into next, a pattern of escalating expenditures, and a well-known consumer price index rise causing economic blues for everyone.

Passage of the renewal and an additional 5.70 mills is needed to wipe out this year \$33,000 shortfall, and to generate enough revenue to pay for providing an educational program for 1981-82 much the same as this year. (Next Week: a look at budget adjustments, state and federal aid history and prognoses, SEV/millage comparisons with surrounding districts, and state reimbursement for special education).

Conklin contends her performance was apparently satisfactory during the probationary period since no reprimands had been issued about her work.

Ms. Conklin said the County Board of Commissioners officially ratified the county's decision to terminate her on December 3, 1980, upon the advice of John B. Huss. Huss was elected Prosecuting Attorney in November of 1980 and assumed office January 1, 1981.

The plaintiff claims in her suit that she participated actively in the unsuccessful reelection campaign of then-prosecutor, Alton T. Davis, and that the defendants knew of her political activities on his behalf.

Ms. Conklin said she suffered damages, including special damages for loss of income from work, and general damages for mental anguish and emotional distress as a direct result of the county's conduct.

Mr. Raymond Homer, college president, used the occasion to announce that Kirtland has been recommended for an 8 year unconditional continuation of its accreditation by a North Central Association evaluation team.

James Dean, KCC honor student, gave an address stating that "Kirtland is a fine place to begin." News of Good Things Growing...

By: Margaret G. McCall

That great American favorite, the hot dog, gets top billing when the family grill is put to use for summer meals outdoors.

Hot dogs are among the good things growing in Michigan, whether the traditional pork mixture, all beef, or the new turkey dogs, because they're made to Michigan's strict standards. Delicious simply grilled and served with such familiar go-togethers as tomatoes, chopped onions, and cheese, they are a special treat when served as chili dogs.

If you're looking for different ways to serve hot dogs, here are some suggestions:

Slit hot dogs lengthwise, about half-way through. Stuff with Cheddar cheese wedges, wrap with bacon, and broil until the bacon is medium crisp. Or stuff with mashed potatoes or squash, topped with cheese, then broil.

Serve a mixed grill at your next backyard party, using hot dogs, and a variety of specialty sausages, like Kielbasa, Bratwurst, and Meltwurst. Let guests choose their favorites, or sample some of each. Similarly, you can use chunks of hot dogs on shish kebabs, alternating with fresh fruit and vegetable wedges.

Hot dogs make great appetizers, cut into chunks and served hot with sour cream and whole cooked mushrooms. Combine sliced hot dogs with green pepper strips and sliced Michigan peaches (either fresh or canned), in a tangy sweet-sour sauce. If canned peaches, use the juice in your sweet-sour sauce.

Sliced hot dogs add flavor to soups, too, and are especially good in Michigan navy bean or cream of potato soup.

From Our
Corner ...

"ON THIS DAY OF MEMORY, WHEN
WE BOW IN HONOR TO ALL THOSE
WHO HAVE FALLEN AT HOME,
IN THE FAR PLACES OF THE EARTH,
AND ON THE SEA... LET US
DEDICATE OURSELVES ANEW
TO AMERICA, THAT IT MAY
CONTINUE TO LIVE AND TO
SERVE THE CAUSE OF
FREEDOM"

Once again we are approaching one of the most important days of the year...next Monday, May 25th the nation will celebrate Memorial Day...the day one stops and pays respect to those we knew who paid the supreme sacrifice while serving their country...the American Legion Post 106 will be in charge of the activities for the day...let it be a day we "lest forget" for the many...

A couple of weeks ago Jack Alef and myself were talking to one of the elder statesmen in Grayling, Bill Joseph, and the subject came up as to how long one has to live in Grayling to become a native...Jack mentioned he would hit the 30 year milestone on May 14th and asked Bill if he qualified yet, we told Jack he would have to wait longer as we have been here since 1946 and we still hadn't been accepted...Bill had so many excuses as to our qualifications that we left the party still in the dark...all we can say, Jack, is that it doesn't look too bright for us ever becoming a Grayling native...

We were over to the Country Club last Sunday and was talking to a group who had just finished playing in the Roscommon-Grayling inter-city golf tournament, that was won by the Grayling swingers...we were asked if we knew that Mr. Paul Lerg had taken up the game of golf...our answer was negative, so they proceeded to tell us about one round that he played recently and came in with a score of 83 while paring No. 9. We couldn't believe it so we asked if anyone played along with him. We were told Dr. Bill Diedrich could vouch for the score...we will believe the good Dr. ...but, Mr. Lerg, well...

A Letter to the Editor, from Bud Joyce appears elsewhere in this issue concerning our column from last week about the legislators trying to come up with a nick-name for those living in Michigan...we mentioned about Joseph Forbes, Democrat of Oak Park tossing in the name of michigos, that means 'who needs it?' We meant no disrespect for Mr. Forbes, we only threw that in because of the legislature trying to decide between Michiganders or Michiganians...which we thought was asinine on the part of our legislators in the first place...we went along with Mr. Forbes suggestion...

We understand the Leprechaun and his bride arose at the untimely hour of 5 o'clock Saturday to make the trip to Big Rapids to attend the graduation from Ferris State College of their two sons, Mike and P.J. from the school of pharmacy. This doesn't happen to often that brothers get their degrees in the same field...our tip of the hat to Mike and P.J.

We have just arrived at the end of this turkey for this week...we wish everyone a happy and safe Memorial Day week...and ask only for everyone to pause a moment and pay your respect to those who gave their lives so we may still live in the home of the free...to T.J., Stef and Amber, good night, and to all have a nice weekend...

It's your return
that counts!

Mrs. A.J. Joseph and daughter Mary Jane returned Tuesday from a few days visit in Detroit.

One day last week everybody and everything in Camp AuSable was especially well groomed (of course everything is always properly groomed) but in anticipation of the arrival of Major Stark. We had hoped for a good impression by all, including our unusually handsome and intelligent dog "Danya" but on this occasion the careless little

beast had spent the morning rolling in the road and then had come galloping into headquarters where he cheerfully deposited himself and his dust all over the first bunk which met the major's eye.

Mrs. Carl Hanson and children and Mrs. Menno Corwin were Gaylord visitors last Wednesday.

"The water was fine" Monday, so says Virginia and Helen Cody, Phyllis Parker and Marjory Broadbent, when they went swimming in Lake Margrethe. It makes the chills run up and down our back just thinking about it.

Under the management of Earl Broadbent, the Oddfellows are assembling a baseball team which is expected (they say) to teach the rest of the local teams just how thoroughly and scientifically this game can be played. It is expected that by next week we will be able to print the lineup.

Howard Granger and Robert Funck, accompanied by Forrest Brado, spent Sunday visiting at Gaylord and Wolverine, making the trip by motorcycle.

Tuesday night as J.J. Collen was driving home from this city his horse became frightened at an auto and tried to run away. Finally the horse fell and Mr. Collen wasn't long in getting to its head until it could be unhitched. In the scrimmage Mr. Collen fractured his left arm.

The Bible Speaks

From Calvary Baptist Church

We Must Stop Terrorism!

With the shooting of the Pope last week, we were again reminded of the total disregard some people in society have for any other people and their values. This kind of thinking promoted by Communism, Socialism and Humanism makes a god of man, and tears down man's respect for God and God's creation which includes our fellowman. A return to capital punishment is the only way to stop professional murderers. Jackson prison here in Michigan houses dozens upon top of dozens of men who should have been permanently removed from society years ago. Some have killed several individuals and are now a threat to both the prison guards and the inmates.

God makes the command for capital punishment very clear, "Whoso sheddeth man's blood, by man shall his blood be shed: for in the image of God made he man." Genesis 9:6. This became the authority for all human government under God. With the authority to punish by

death came the lesser degrees of control and punishment for protection of society. Capital punishment was not instituted because of man's worth, but because of God's image in man. All murder is then a sin against God first, and because of this, God has ordered Capital punishment.

God not only commanded capital punishment for murder, He also commanded that no exceptions be made. "Moreover ye shall take no satisfaction for the life of a murderer, which is guilty of death: but he shall be surely put to death." Numbers 35:31. Government then functions as a servant of God when they obey His commands for capital punishment. "For he is the minister of God to thee for good. But if thou do that which is evil, be afraid; for he beareth not the sword in vain: for he is the minister of God, a revenger to execute wrath upon him that doeth evil." Romans 13:4.

The methods of capital punishment in early Bible days included, burning, Genesis 38:24; stoning, Deut. 21; hanging, Genesis 40:22; beheading, Matthew 14:10; and crucifixion. With our Humanistic gas chambers and sudden death electric chairs isolated from the view of society, we were losing the social benefit of capital punishment, even before its practice almost ceased. God did not tone down capital punishment for His only begotten Son who died on a cross for your sins and mine. "Surely he hath borne our griefs, and carried our sorrows: yet we did esteem him stricken, smitten of God, and afflicted. Yet it pleased the Lord to bruise him; he hath put him to grief: when thou shalt make his soul an offering for sin, he shall see his seed, he shall prolong his days, and the pleasure of the Lord shall prosper in his hand. He shall see of the travail of his soul, and shall be satisfied..." Isaiah 53:4, 10, 11a.

The man who shot the pope should be crucified publicly on the very spot where the shooting took place. It is time we give international terrorists a clear message, more clear than words and threats. (adv.)

Fascinating Facts About Michigan

In 1817 the oldest state university in the nation was founded. Originally known as "The Catholepistemiad", it now goes by a simpler name—University of Michigan.

Henry Wadsworth Longfellow drew his information for "The Song of Hiawatha" from Henry R. Schoolcraft, famous Michigan historian and scientist. One of the Upper Peninsula counties bears the latter's name.

Early Indians had a name for Michigan—Mishigamaw - which means Great Water.

In 1787, the Continental Congress under the Articles of Confederation laid down a decree for Michigan known as the Ordinance of 1787. According to that ordinance "schools and the means of education shall forever be encouraged because three things are necessary to good government: Religion, Morality, Knowledge."

Suomi College of Hancock holds the distinction of being the only Finnish-American school in the United States.

Although Congress forced Michigan to give up its claims for the 8-mile Ohio boundary strip which included Toledo, the state was more than reimbursed when it received the Upper Peninsula as compensation.

Michigan State Police started the nation's first school safety patrols and the first state police radio system in the world. A Frenchman, Etienne Brule, was the first known white man to reach Michigan territory. Although the exact date of his trip through the straits is unknown, it is believed to have occurred within several years of the landing of the Pilgrims at Plymouth Rock.

Viking 'Nine' Wins District Qualifier

Coach Fred Wolcott's GHS baseball team banged out 14 hits Thursday to overpower Roscommon in a District qualifying game, 10-7. The win sends the Vikes to the Pre-district against Lincoln-Alcona this Friday.

The squad split a double-header against Rogers City Monday to even its league mark at 2-2, good for 3rd place in the 5-team loop, with the season record standing at 4-5.

Rosco scored four runs in the top of the 1st Thursday against Brad Trenary, who started for the Vikes. But the offense came back with six runs on 5 hits in the bottom of the inning to take a 6-4 advantage.

Both teams scored in the second but the Vikes tallied one in the 3rd and a pair in the bottom of the fifth to preserve the win.

Dave Burr doubled twice to knock in 3 runs and Monty D'Amour was two for three with 3 rbi's. Jamey Radebaugh went 3 for 4 and stole two bases for Grayling.

Trenary worked 4-½ innings and was relieved by Jeff Kortes who went the rest of the way, allowing only one hit.

Kortes tossed a 7-hitter Monday to nip the Hurons, 6-5 in the opener of a doubleheader, but Rogers City came back to take the nightcap, 2-0. The Hurons scored two unearned runs in the 3rd inning off D'Amour, who took the loss without giving up a hit.

Viking batting leaders: Burr (.666), D'Amour (.476), Kortes (.416), Trenary (.411), Methner (.312), Roach (.300).

"The team's playing good ball," said Wolcott, who said the team can gain a berth in the Districts, played here May 29, with a win Friday at Lincoln-Alcona.

Viking Girls Claim Region Trophy, 9 in State Finals

The GHS Viking girls captured the Regional Track Championship Saturday at Traverse City, and nine tracksters qualified in the process to compete in the State Class C Finals May 30 at Clare.

"It was a super performance by the team", said Coach Marilee Cheney, whose team racked up 76 points to easily outdistance the field of 15 Class C schools, "I really can't say enough about them."

Here are the nine team members who qualified for the Finals:

First Place-Lisa Radebaugh (220 hurdles), Beth Jones (mile).

Second Place-Radebaugh (long jump), Jones (2-mile), Diane Lee (880), Jill Headlee-Heidi Bendig-Lee-Jean Stevens (mile relay).

Third: Radebaugh (110 hurdles), Jean Bitner (high jump), Headlee-Dawn Weatherly-Shelly Peterson-Radebaugh (880 relay).

Cheney said Radebaugh had a "super performance" in qualifying in four events, and set a school record with a 30.93 in the 220 hurdles. The Coach said the team was "performing to its potential, and 'had it all together on Saturday.'"

Cheney tabbed Jill Headlee as the team's "unsung hero", leading off for the relay teams, said Jones ran well in the distance runs, and lauded Diane Lee and Lisa Radebaugh for their team efforts.

Grayling girls placed nine in the state finals in fifteen events. Rogers City placed second Saturday with 63 points, Mason

County Central had 45 and Houghton Lake, 42.

More in next week's Avalanche about the GHS competitors in the state finals.

Last Thursday the girls trekked north to run in the Rogers City Relays against 9 all-class schools and finished 6th.

Coach Marilee Cheney said the format of the meet was a bit different, with points being scored by a system that took all a team's competitors performance into consideration in each event. Winning points for Grayling:

Third: J. Bitner-W. Savallisch-D. Hawley-L. Radebaugh (shuttle hurdle relay).

Fourth: W. Savallisch-T. Savallisch-H. Bendig (shot put).

Extension of Energy Conversion Tax Credit Okayed

Warren M. Hoyt, Executive Director, MPA

The State House of Representatives has overwhelmingly approved a two-year extension for the income tax credit available to homeowners installing alternative energy conversion devices such as solar-panels and windmills.

Business would also be granted a single business tax credit of 25 percent of the cost of installing such devices for the first \$25,000, under a second bill approved by the House.

The income tax credit to individuals began in 1979 and was scheduled to be phased out, with homeowners getting credits of 20 percent on the first \$2,000 cost of the system in 1981, 15 percent in 1982 and 10 percent in 1983.

Under the recently approved legislation, the credit would be revised to 25 percent on the first \$7,000 in 1981 and 1982, then the credit would go to 20 percent in 1983, 15 percent in 1984 and 10 percent in 1985.

A move to include woodburning stoves in the tax credit program was narrowly defeated.

Seniors Need More Help From Substance Abuse Programs

A report from the Governor's Advisory Group on Seniors and Substance Abuse indicates that although substance abuse services are available in 65 of 83 counties, they are not nearly as extensive nor as good as they need to be, especially services to senior citizens.

"Seniors were only slightly more than one percent of the 85,270 clients treated last year (in substance abuse programs) and we know their rate of problems is higher," said chairperson Dorothy Walker.

Earlier reports have estimated that 80,000 to 90,000 of the state's 1.3 million senior citizens have serious problems due

to alcohol abuse.

Another major problem is misuse of medication and the report identified a need for training senior citizen agency staff to better monitor medication.

A recent survey found 14 percent of clients were undermedicated, 27 percent were over medicated, 21 percent had inappropriate medication and 20 percent had a drug-induced organic brain syndrome.

Additionally, only 15 percent of the agencies saw themselves as responsible for monitoring medication.

Minors Cannot Form Corporations

Persons who are under the age of 18 cannot help incorporate a business nor may they serve on a corporate board of directors, Attorney General Frank Kelley has ruled.

This prohibition applies to both profit and non-profit corporations. Kelley added, however, that the opinion has no bearing on minors holding and owning stock.

There is no specific legal prohibition against people under 18 either helping to form a corporation or serving on its board. However, he noted, common law has traditionally prevented minors from serving in a corporate office or forming a corporation.

Because the state follows common law unless specifically abrogated by the state, that prohibition must follow, Kelley said.

The state has changed common law to grant adult status on people turning 18, instead of at 21, but "it cannot be said that the common law has similarly been abrogated with respect to legal capacity of minors in relation to the formation and management of profit or non-profit corporations in Michigan," Kelley concluded.

SUNCATCHER CELEBRATES—John and Sue Noteware receive a Chamber of Commerce Membership Plaque from Ralph Stevens, C of C Board President, during the Grand Opening last Tuesday at their Suncatcher Marine & RV Service Center on Grayling Avenue at Lake Margrethe.

A number of local friends and C of C officers were on hand last Tuesday to join the Grand Opening Celebration. (Joe Schrader photo)

Don't be embarrassed if you need to call, we have a great crew on our fire department. In regards to the ambulance, it always goes when there is a fire, if a house, building or a car, someone may need medical attention or maybe one of the firemen needs help. Thank you. **Strolling
Around Town**

By Fay Bovee

A beautiful sunny day, such as we had Saturday, always brings out the painters and Gary Fox on Michigan Avenue was hard at work on the fence between his home and Beulah Moore. The Ken Jacksons are getting a whole new roof and on Ogema the Bob Wymans have a new garage. Further along Ogema there are some very well-kept yards and homes. St. John's Lutheran Church members have not only done considerable remodeling, but also have trimmed trees and cleaned up the grounds. Another older home that was in poor condition on Fulton on the South Side is being torn down.

**Michigan Week
Home To 15,000
Nomadic Indians**

Only four centuries ago, Michigan was home to some 15,000 nomadic Indians, but the arrival of civilization changed its wilderness image. As early as 1800, some 3,000 settlers supplanted the Indian population. When Michigan became a state in 1837, newcomers had increased the population to about 85,000.

In 1845 the State Legislature compiled a six-page pamphlet encouraging immigration and dispatched an agent to New York's Ellis Island with an invitation to newcomers. The document, State of Michigan 1845 to Emigrants, is in the Michigan Unit of the State Library.

Citing advantages of settling in the Grand Rapids region, the brochure gave these directions: "Persons wishing to visit this portion of Michigan can do so by passing around the Great Lakes to the mouth of Grand River, and up the river by steamboat, which makes daily trips, or take the railroad at Detroit for Battle Creek, and thence by stage, which runs six times a week."

"Furniture and heavy luggage can be sent by way of the Lakes, and Grand River, at less expense than it can be transported across the country."

Just two years later, the Legislature printed a larger 47-page booklet in both German and English. Immigration to Michigan continued throughout the 19th century, so that the 1900 census came up with a population figure of 2,240,912.

The diversity of nationalities and wide range of capabilities contributed to the phenomenal development of the Michigan region. There was a place for everyone in the sequence of activities and industries, which comprised the American pattern of growth: lumbering, mining, agriculture, manufacturing, navigation and misc. enterprises. In time, more than 20 nationalities settled in Michigan.

Ethnic festivals in Detroit, originally Michigan Week events, still happen each weekend from Spring to Fall.

Par For The Course

By Fay Boove

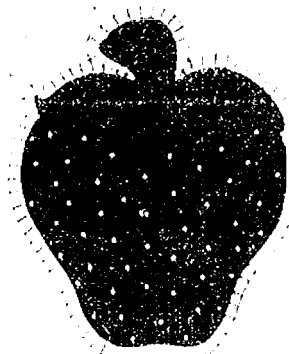

The Wednesday Morning Auxiliary started off the 1981 season with a fun day of Scrambles on May 13. There was a nice turnout in spite of the brisk weather and they enjoyed a brown bag lunch. Prizes were given to Mabel Gothro for the longest drive on number 1 and closest to the pin on number 5 went to Corrine Smith. If the winning score was any indication of things to come, it should be a good season; three four-somes came in with a low of 39. Since all teams also had low putts of 12, the winners were determined by a draw with prizes going to Shirley Bendig, Mary Sidwell, Nora Fraser and Doris Birtcher.

Letter to the Editor:
Attention Elementary School Parents.

Tuesday, April 28, 1981 was the bowling banquet for the kids. My son Eric Bonamie received a couple of very nice trophies.

Being a proud little boy, he took one to school for Show & Tell Wed., April 29 or Thurs., April 30th. Eric's trophy was taken from Mrs. Yost's Class. This trophy could not possibly have any value to anyone else. It reads "Most Improved Eric 25-57 1980-81."

Please check and see if your son or daughter might know the whereabouts of this.

Would appreciate it being returned to the Elementary School to a very disappointed little boy.

Thank you,
Sherry Harney

Whitey:

Thought you might be interested in the article concerning me (Editor's note—the article appears elsewhere in this edition). I was appointed to COOR School Board on May 13, 1981 giving Crawford another board representative (Jim Kolka is on the board).

Also—read your column this week re: Joe Forbes—Your statement was written, I think, with "tongue in cheek" and meant no disrespect to Joe.

I must tell you I've known Joe and his entire family for 25 years. He's Jewish, of course, but his wit is quick and funny. He taught me most of the Jewish phrases I know. Actually, Whitey, he is one of the most honest, hard working politicians ever to hit Lansing. I have used his office numerous times (still do) to get information re: legislation, etc. He answers promptly and in detail. Right now, we are trying to get state legislation action on bringing excess school books from lower Michigan areas (declining enrollment) to be sent to northern Michigan districts—the 4,600 books I got to Grayling all came from Joe's district (Oak Park), and, with Joe's legislature clout as House Majority Leader we may get many more—books paid for originally with state aid monies.

I just thought you should know more about the real Joe Forbes. He's one hell of a good man—as are you!

Thanks,
Bud Joyce

GO WHERE THE ENERGY IS

No one is sure whether Hiram Hegarman built the dam—it may have been there before his time. The lake has given its own legacy of refreshing beauty to the country-side.

But Hiram built his mill by the waterfall—where the energy was. There he and his sons spent most of a century grinding corn for their neighbors.

His descendants remember Hiram as "a God-fearing man." Not surprising, of course... you'd expect a man who goes where the energy is to have a deep respect for the Source of all energy.

Think about building your life... your family's future... close to the spiritual resources of your church or synagogue. Go where the Energy is!

Hear the Band

As many of you know, the Concert Band had its Spring Concert last Thursday. The Choir also participated in the Concert. Five awards were passed out in the Choir. In the band, "The Most Improved Player" award was given to Don Carl and Scott Pittman. Last year's winners received trophies as well as this years. The prestigious "John Phillip Sousa" award was shared by two people this year. Each year the award is given to a senior or seniors, who were outstanding in their four years of band at the High School. This year's recipients were: Terri Fijolek and Shawna Watters.

We have five seniors who were recognized at the Concert also. The Seniors are: Terri Fijolek, Rod Leslie, Jay Schrader, Alicia Taylor and Shawna Watters. This was the last concert for these people as High School members and the band wishes them luck in the future!

Don't forget the Reef Petroleum Big Band on May 26th at 7:30 at the High School.

Seniors 'Man of the Hour':

Roger Curtis

The Senior Citizen's Center takes this opportunity to recognize Roger Curtis for his many hours of dedicated volunteer work in the woodshop since being laid off from his public service (CETA) job last September.

According to Director Lora Gould, Roger has worked almost 1300 unpaid hours at the center, volunteering his woodworking skills to help serve elderly citizens in the community. His work involves teaching woodworking, along with repairing and refinishing furniture. Money taken in for his efforts is used to help in financing operation of the center.

Said Mrs. Gould: "Roger knows what this means to us and likes to help. He doesn't know what he'd do all day without volunteering his time at the center - even though his work is free. We salute and thank you, Roger."

Roger, 58, lives with his wife, Mary, at AuSagra Acres, but if you want to find him between 8:00 a.m. and 4:30 p.m., head for the woodshop at the Senior Citizen's Center.

ACROSS FROM A & P

Q: IF I CAN GET A HIGHER RETURN FROM A MONEY MARKET FUND, WHY SHOULD I PUT MY MONEY IN FIRST SAVINGS?

A: INSURED SAFETY AND A GUARANTEED RETURN.

It's as simple as that. With a First Savings Money Market Certificate there's no risk. Your savings are insured up to \$100,000. And the rate is guaranteed for the length of the certificate. With a Money Market Fund it's different. Your money's not insured, so there's always the chance you could lose it all. And in many money market funds the rate of return is not guaranteed. In some Money Market Funds, the rate changes daily. If the rate goes down so does your return. That's why it's important to check carefully before you invest. So the question is really not who pays a higher return today, but risk versus no risk. We think you'll feel a lot better with your savings in a First Savings "No Risk" Money Market Certificate.

Dear Mom or Dad—
Please don't leave me in the parked car in the sun. I could die of heat stroke - especially if I'm strapped into a car seat facing the sun. Death & Hypothermia occur quickly, not within hours.

Thank you,
Your Child—
Happy Mother's Day
